**Oscar Guinea:** Hello, welcome to Sin Arancel de Por Medio, the new Spanish podcast from ECIPE.

ECIPE is a think tank or research centre based in Brussels, dedicated to the analysis of international economic policies, from trade and globalisation to the digital economy and technological development.

My name is Oscar Guinea, and I am an economist at ECIPE.

**Renata Zilli:** And I am Renata Zilli, a researcher at ECIPE.

In each episode, we will analyse current issues in the economy and international politics, with expert guests, political leaders, and academics from different countries and backgrounds.

We will talk about free trade agreements, security, economic integration, migration, and above all, politics and politicians.

**Oscar Guinea:** Our interest is to understand the impact of global policies on Latin America and the economic, political, and social events that happen, without rest, in the region.

**Renata Zilli:** Subscribe to Sin Arancel de por Medio on [Apple Podcasts](#) or [Spotify](#).
